

100ft Nordic Solar Container for Marine Use

Overview

The Mobil-Grid ® is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries. Reduced Environmental Impact: By utilizing existing shipping containers, we reduce the need for new construction materials, minimizing our carbon footprint and promoting sustainability. These containers come in various. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power. Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no shading from a remaining container structure. This is how we designed the first kit on the market for solar panels for shipping.

100ft Nordic Solar Container for Marine Use

Shipping Containers for Power Generation & Energy Storage

Convert shipping containers into mobile power stations equipped with generators or solar panels. These can be deployed to remote areas or disaster-stricken regions to provide temporary power solutions.
