

Antarctica solar-powered communication cabinet inverter

Antarctica solar-powered communication cabinet inverter

Beware the "rogue communication devices"

The biggest threat to solar inverter security is the software that uses the advertised communication hardware. As demonstrated by Deye when I wrote about them in November, any ...

Hidden Devices in Solar Grid Inverters and Batteries

Over the past nine months, forensic security teams have logged multiple brands of Chinese solar inverters containing hidden wireless communication equipment. Investigators have ...

Hidden communications devices found in Chinese solar power inverters

U.S. energy officials are reassessing the risk posed by Chinese-made devices that play a critical role in renewable energy infrastructure after unexplained communication equipment was ...

Cybersecurity Alert: Undocumented Radios Discovered in Chinese Solar

In a shocking revelation that has sent ripples through the cybersecurity and renewable energy communities, security experts have discovered undocumented communication ...

Hidden Communication Devices Found in Chinese- Made Inverters

These undocumented communication modules offer an invisible back door into devices that regulate a growing share of the world's electricity. "It effectively means there is a built-in way to

Rogue communication devices found in Chinese solar power inverters

The two people declined to name the Chinese manufacturers of the inverters and batteries with extra communication devices, nor say how many they had found in total.

U.S. officials Investigating Rogue Communication Devices in Solar Power

These inverters, which are essential components that convert direct current from solar panels into alternating current usable by the electrical grid, were found to contain undocumented ...

The Hidden Threat: How Rogue Communication Devices in Solar Inverters

This investigative article exposes the discovery of undocumented communication devices hidden in Chinese-made solar inverters, creating unprecedented vulnerabilities in global power grids.

48V 100Ah

Chinese energy tech exports found to contain hidden comms and ...

Rogue communication devices have been discovered in Chinese made solar inverters, devices which play a 'critical role' in renewable energy infrastructure, Reuters reports. This has ...
