Overview

Australian-made, on-grid and off-grid energy storage solutions that store solar power and can make you income through your very own Private Power Plant. Assembled and tested in Brisbane, Australia. Saltwater Solar provides complete off-grid power system cabinets containing batteries and all enabling equipment for continuous electricity supply to remote area homes, businesses and remote communities. Did you know that your rooftop can generate up to three times more solar. Recreen Energy offer all in one integrated industrial and commercial energy storage systems solution which are designed to provide reliable and cost-effective energy storage solutions for regional microgrids such as small CBD, farms, islands, outdoor photovoltaic power station, etc. This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage. The SUNWAY 50-100 kW Outdoor Cabinet ESS is an all-in-one energy storage solution designed for commercial and industrial applications. Equipped with a reliable Growatt inverter, it supports flexible battery options including rack-mount and stackable batteries. The outdoor cabinet is weatherproof. Through the federal government's \$1 billion Solar SunShot Program and the broader Future Made in Australia initiative, the nation is working to build domestic solar manufacturing capabilities, with a goal of supplying around 20% of domestic solar panel demand by 2030. For B2B buyers and homeowners.
