

# Battery solar container energy storage system in Morocco

## Overview

---

A local media report, citing Onee, reported that the North African state plans to invite bids for a battery energy storage system (bess) project with a capacity of nearly 1,600MW. The project is understood to be part of a long-term programme to expand renewable energy sources in. Morocco is accelerating its energy transition by issuing a global call for expressions of interest to build two large-scale battery storage facilities. Image used for illustrative purpose. [pdf] Deployed in under an hour, these can deliver anywhere from 20–200.
