

Cape Verde s first wind solar and energy storage power station

Cape Verde s first wind solar and energy storage power station

Cape verde energy storage enterprise

Cape Verde energy sector is strongly characterized by consumption of fossil fuels (derived oil-primary imported oil), biomass (wood) and use of renewable energy particularly wind and solar power.

CAPE VERDE INVESTS IN WIND ENERGY AND STORAGE

While solar power has an enormous potential as a source of renewable energy, natural conditions in Cape Verde are one of the best in the world for the production on wind energy.
