

Chemical energy storage batteries

Chemical energy storage batteries

Chemical reaction , Definition, Equations, Examples, & Types

Substances are either chemical elements or compounds. A chemical reaction rearranges the constituent atoms of the reactants to create different substances as products.

Cellular respiration , Definition, Equation, Cycle, Process, Reactants

Cellular respiration, the process by which organisms combine oxygen with foodstuff molecules, diverting the chemical energy in these substances into life-sustaining activities and ...

Chemical industry , Overview, Importance, & History , Britannica

Chemical industry, complex of processes, operations, and organizations engaged in the manufacture of chemicals and their derivatives. Raw materials include fossil fuels and inorganic ...

Chemistry , Definition, Topics, Types, History, & Facts , Britannica

Cooking, fermentation, glass making, and metallurgy are all chemical processes that date from the beginnings of civilization. Today, vinyl, Teflon, liquid crystals, semiconductors, and ...

Chemical synthesis , Organic & Inorganic Reactions , Britannica

Chemical compounds are made up of atoms of different elements, joined together by chemical bonds. A chemical synthesis usually involves the breaking of existing bonds and the formation of new ones.

Chemical Weapons Convention (CWC) , Britannica

Chemical Weapons Convention (CWC), international treaty that bans the use of chemical weapons in war and prohibits all development, production, acquisition, stockpiling, or transfer of such ...

Chemical castration , Usage, Treatment, Legality, & Facts ,

Britannica

Chemical castration differs from surgical castration in that it is reversible and its effects typically stop when the drugs are ceased. Chemical castration is used in the treatment of certain types of cancer, ...

Photosynthesis , Definition, Formula, Process, Diagram, Reactants

Photosynthesis is the process by which green plants and certain other organisms transform light energy into chemical energy. During photosynthesis in green plants, light energy is ...

Nitric oxide , Uses, Facts, & Definition , Britannica

Nitric oxide, colourless toxic gas that has important chemical signaling functions in animals and is a serious air pollutant.

Periodic table , Definition, Elements, Names, Symbols, Groups, ...

Periodic table, in chemistry, is an

organized array of all the chemical elements in order of increasing atomic number. When the elements are thus arranged, there is a recurring pattern in

...
