### China aims to nearly double battery storage by 2027 in \$35 billion plan

China is looking to almost double its so-called new energy storage capacity to 180 gigawatts (GW) by 2027, according to an industry plan announced by authorities on Friday.

### Xu Yanming, deputy to the National People's Congress and chairman ...

With the rapid growth of new energy, its intermittent and volatile impact on the security of the power grid is increasing, and new energy storage is urgently needed to play a stable and ...

### China National People's Congress Representatives New Energy Storage

China's first energy law was approved on Friday at the 12th session of the Standing Committee of National People's Congress, China's top legislature, and will come into effect on .

## CHINA'S ACCELERATING GROWTH IN NEW TYPE ENERGY

...

By the end of 2023, China had completed and put into operation a cumulative installed capacity of new type energy storage projects reaching 31.4GW / 66.9GWh, with an average storage duration of 2.1 ...

### FLEXIBLE SETTING OF MULTIPLE WORKING MODES

### Home Energy Storage (Stackble system)

**Product Introduction**

- ☑️ Scalable from 10kWh to 50 kWh
- ☑️ Self-Consumption Optimization
- ☑️ Integrated with inverter to avoid the compatibility problem
- ☑️ LFP battery, safer and long cycle life
- ☑️ Stackable design, effortless installation
- ☑️ Capable of High-Powered Emergency-Backup and Off-Grid Function

## China to boost new-energy storage manufacturing industry, targeting

China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, enhance innovation ...

## After the mandate: China's energy storage sector one year on

Energy After the mandate: China's energy storage sector one year on With clean energy projects no longer needing to be bundled with energy storage, companies are finding new ...

## China surpasses 100 million

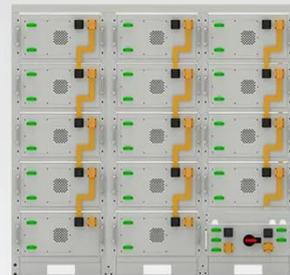

## kW in new energy storage

China's new energy storage capacity has exceeded 100 million kilowatts, marking a major milestone in the nation's transition toward a new-type energy system and consolidating its global lead ...

## China National Energy Administration Released Official Report

China's National Energy Administration (NEA) has released the China New Energy Storage Development Report 2025, marking the first official and comprehensive government report ...

**Battery String-S224**

- 1C Charge/Discharge
- Easy configuration and maintenance
- Power supply can be single battery string or parallel battery strings

## Already world's top energy-storing nation, China to supercharge

"As China progresses towards carbon-peak and carbon-neutrality goals, new energy is growing rapidly, making energy storage essential for building a modern power system as a key tool ...

## China unveils three-year action plan to boost new-type energy storage

China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ensure ...
