

China portable power station in burundi

Overview

Located in Rumonge Province, southern Burundi, the Ruzibazi Hydropower Station — constructed with Chinese assistance — has become a key driver of the country's clean energy transition. As the largest and most advanced hydroelectric power station in Burundi in terms of monthly power generation, it has increased the nation's power generation. Recently, the People's Daily Online International Channel reported that the cumulative power generation of China aided Hujibaji Hydropower Station in Burundi has exceeded 250 million kilowatt hours. Through strict equipment inspection and maintenance, all indicators of the power station are kept in good condition.
