

City Solar Panel Factory

Overview

One of the main features of the program was the solar panel factory to be leased by SolarCity in the High-Tech Manufacturing Innovation Hub at RiverBend. The state appropriated \$750 million in funding for the hub. Founded by Peter and Laurence J. Berman, SolarCity Corporation was a publicly traded company headquartered in, that sold and installed systems as well as other related products and services to residential, commercial. SolarCity was founded in 2006 by South African brothers Peter and Laurence, based on a suggestion for a solar company concept by their cousin, Laurence, who was the chairman and helped start the company. In 2008, SolarCity entered the solar leasing market with a new solar lease option for homeowners: leasing rooftop solar to customers who would pay no upfront costs. In exchange, customers paid for 20 years for power generated. In 2014, SolarCity announced plans to build a new manufacturing facility (now known as the Gigafactory 2) in, in coordination with the, after acquiring Silevo, a maker of high-efficiency solar panels.
