Comparison of Emergency Power Supply Cabinet IP67 and Ordinary Cabinet

SEPLOS
Model:71173204
Voltage:3.2V
Capacity:280Ah
Watt-hour:896WH

Overview

Knowing the difference between IP65 vs IP67 helps you pick the right enclosure for your environment. When selecting electrical enclosures, one of the most critical specifications to consider is the IP (Ingress Protection) rating. Defined by the IEC 60529 standard, IP ratings tell you exactly how well a box guards against solids (like dust) and liquids (like water). Linkwell knows how harsh environments can threaten your equipment., and IEC (International Electrotechnical Commission) worldwide.
