

Concentrated solar rack installation

Overview

To properly install solar racking, a licensed electrician must execute a multi-stage process focused on structural integrity and electrical safety. The procedure begins with a thorough roof assessment and layout, followed by installing flashing and mounts at rafter locations. IntegraRack specializes in ballasted solar panel racking solutions with sun angle options from 5 degrees all the way up to 45 degrees. Our universal design. Get proposals, plan sets and racking under one roof for quicker approvals and smoother installs. Unirac's Plan Set Services reduce your workload, protect your margins and help every job run faster. We offer a growing range of parts manufactured in the United States to support projects with domestic. The hardware design is a simple configuration that allows contractors to install at lightning fast speed with adjustable features built in.
