

Contracting photovoltaic panel installation

Overview

Professional solar panel system installation by a state licensed contractor includes labor, wiring, electrical setup, balance of system parts, building permit, utility approval, inspection, monitoring setup, activation, and have a 5 to 10-year warranty on labor. As a residential homeowner, small business, not-for-profit, or local government, you're eligible for NY-Sun incentives when you work with a participating contractor. Your contractor will: Participating contractors are all vetted by NYSERDA. However, contractors can also earn a NYSERDA Quality Solar. How can we help you?

Find an Installer Near Me - Link with certified local solar installers to install or upgrade your home's solar energy system. Installation services are not. During your in-home visit, we verify that your roof qualifies for solar, calculate how much you could save on energy costs, and discuss incentives. We custom-design your solar system for maximum energy production and savings. We go beyond simply placing panels on your roof. This comprehensive guide walks you through every step of your solar project, from initial assessment to system.
