

# Cost of Grid-Connected Intelligent Energy Storage Cabinets for Subways

## Overview

---

The cost of an energy storage grid cabinet can vary greatly, influenced by a multitude of factors. The price range generally falls between \$10,000 and \$100,000, depending on specifications and capacity. Higher initial investments may be offset by long-term savings on energy. DOE's Energy Storage Grand Challenge supports detailed cost and performance analysis for a variety of energy storage technologies to accelerate their development and deployment The U. The project team would like to acknowledge the support, guidance, and management of Paul Spitsen from the DOE Office of Strategic Analysis, ESGC Policy. New York is a global climate leader building a healthier future with thriving communities; homes and businesses powered by clean energy; and economic opportunities accessible to all New Yorkers.
