We offer the most flexible cabinet and rack solutions designed to meet the needs of the most demanding environments. With the most frame styles. Server racks which are used to house servers, monitors and similar equipment, are deep and enclosed server racks contain perforation to allow for ventilation to keep the equipment cool. Network racks are much shallower and used to house networking equipment and accessories like routers, switches. Line-Interactive UPS systems provide both battery backup and automatic voltage regulation of AC power (boost/cut) to give a greater amount of power protection than a Stand-By UPS.
