

# Cost of a 10kW modular solar cabinet photovoltaic system on an african island

## Overview

---

The average cost of an off grid 10kW solar system is \$19,000. However, it does not include the cost of batteries, which can range from \$2,000 to \$10,000 depending on the type and size of battery you choose. In 2025, a 10 kW solar panel system costs around \$25,400 before incentives, based on real installation data from across the country. But your actual price will depend on factors like your roof's complexity, local labor costs, the equipment you choose, and what incentives are available in your area.
