

# **Cost of a 50kW photovoltaic integrated energy storage cabinet for airport use**

## Overview

---

The cost will depend on a number of factors, including operating duration, utility rate structures, demand charges and additional fees. The Sunway 50kW/100kWh Outdoor Energy Storage System integrates high-performance lithium iron phosphate batteries, modular PCS, intelligent energy management, and a robust power distribution system—all within a weatherproof, front-maintenance cabinet. Designed for rapid deployment and flexible. Its modular architecture allows flexible deployment for a range of applications, from commercial to industrial. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy. Energy Cube 50kW-100kWh C&i ESS integrates photovoltaic inverters and a 100 kWh energy storage system. When the time-of-use tariff is at its peak segment, the energy storage cabinet automatically discharges, realizing the arbitrage of the price difference.
