

Dhaka energy storage project subsidy

Overview

The Dhaka Grid Energy Storage Subsidy aims to address this challenge by incentivizing advanced battery storage solutions. Let's explore how this initiative benefits industries, households, and renewable energy integration. "Energy storage isn't just about batteries - it's about building resilience. The European Union Delegation (EUD) successfully hosted the "Energy Storage Roadmap Presentation & Handover: Driving Investments & Coordination" event at the residence of the EU ambassador in Dhaka on 1 June. The programme was attended by Prime Minister's Energy Advisor Tawfiq-e-Elahi Chowdhury, according to the Ministry of Energy. Subsidies are available to the transmission system operator and electricity distributors and aim to promote renewable energy sources dependent on the weather to the Renewables on Employment. It also includes a summary of indicative policy and regulation actions and interventions that may be considered to enable the deployment of energy roadmap for the technology that dates back over two thousand years.
