

# Domestic new energy storage ranking

## Overview

---

Our ranking of domestic energy storage bases considers: 1. Manufacturing Muscle Take CATL's Ningde base in China – it pumps out enough batteries annually to power 1.6 gigawatts (GW) of installations, according to the latest U. Energy Storage Monitor report released today by the American Clean Power Association (ACP) and Wood. The US Energy Storage Monitor is a quarterly publication of Wood Mackenzie Power & Renewables and the American Clean Power Association (ACP). Each quarter, new industry data is compiled into this report to provide the most comprehensive, timely analysis of energy storage in the US. All forecasts. Including Tesla, GE and Enphase, this week's Top 10 runs through the leading energy storage companies around the world that are revolutionising the space Whether it be energy that powers smartphones or even fuelling entire cities, energy storage solutions support infrastructure that acts as a. According to the report 5. Energy Storage Monitor from the groups reports 5.6 GW of installations during the second quarter. But which ones deserve top billing in our ranking?

Who Cares About This Ranking?

(Spoiler: Everyone) We didn't just throw darts at a map (though that would make for great YouTube content).
