

EU sells outdoor power supplies

Overview

On 13 October 2025 the European Commission adopted Regulation 2025/2052, introducing updated “ecodesign” standards for external power supplies (EPS), portable-battery chargers, wireless chargers / charging pads, and USB-Type-C cables. External Power Supplies (EPS) are devices used to supply electricity to, and to charge built-in batteries of electronic and electric devices such as laptops, mobile phones, tablets, MP3 players, electronic cigarettes, electric tooth brushes, electric shavers, etc. For products without built-in. A major shift in the way chargers, adapters, and power accessories are designed, labelled, and sold in the EU — with global implications. Known as 'External Power Supplies', these products are covered by ecodesign regulations that are about to be updated. The market is expected to grow from USD 380. 4 million in 2035, at a CAGR of 7. 4%, according to latest report published by Global Market Insights Inc. The Europe outdoor power equipment.
