

Electric vehicle infrastructure bahamas

Overview

Government fleets lead with over 235 BYD EVs introduced since 2022, boosting visibility across Nassau and other islands. The Bahamas aims for 50% of new vehicle sales as fully electric and 30% hybrid by 2035, limiting fossil fuel models to 20%. Ben Albury, the Bahamas Motor Dealers Association's (BMDA) president, predicted. Whether you're seeking the power and convenience of gasoline, the efficiency of hybrid, or the sustainability of electric, we offer a wide range of vehicles to suit your needs. Our lineup features top-tier brands that deliver exceptional performance and value, ensuring you find the perfect fit for. Local dealerships are introducing innovative electric vehicle (EV) models, reflecting a commitment to environmental consciousness and modern technology. From figuring out the range of the car to the different types of charging stations available, we've got you covered.
