

# Energy storage station in green factory

## Overview

---

Let's face it: factories aren't exactly known for being tree-huggers. But the rise of green factories is flipping the script, and energy storage stations are stealing the spotlight. Imagine a factory that not only makes widgets but also moonlights as a giant, eco-friendly battery. Tesla (NASDAQ: TSLA) Shanghai Megafactory will be equipped with an. Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Feb 11, as the assembly line started the production of the first Megapack unit. The Megapack, which is an advanced battery system designed for large-scale energy projects, can store more than 3,900. Tesla's new Shanghai Megafactory will kick off producing Megapacks on Febru, marking a significant milestone as its first energy storage site outside the US.
