

Highly cost-effective expandable folding containers for steel mills

Overview

Robust, heavy-gauge steel containers built for demanding industrial environments. Steel King's Hold 'n Fold® industrial steel storage containers combine the cost savings of a collapsible (light duty) container with the durability of a rigid (heavy duty) container. Because these containers are stackable up to six high when loaded to capacity, you get the flexibility you need for. These bulk containers are made of steel with a zinc galvanized finish for long-lasting durability. Sheet Metal Floor on Tubing Base Structure to provide fast and easy setup. We have the capability to manufacture custom metal shipping containers, which have one drop gate on their either sides.
