Hitachi grid formation

Hitachi Tests Grid-Forming Inverter for Grid Stability

An advanced grid-forming inverter (GFM) system is now operational at Hitachi Industrial Equipment Systems' Narashino Works plant in Japan. The installation is part of a larger push to ...

A Resilient Grid for a Renewable Future: How Grid Forming (GFM)

Hitachi Industrial Equipment Systems (HIES) has taken the lead in implementing GFM Inverter at its Narashino Works in Chiba, Japan. Since its launch in April 2025, the implemented ...

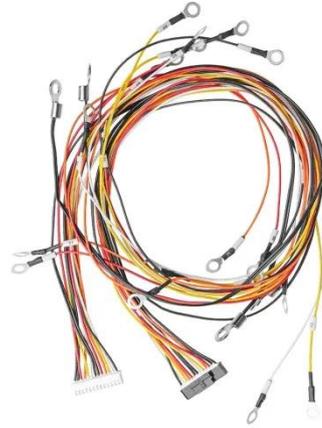

Hitachi Energy Grid Academy

The objective of this course is to identify the main elements in offshore grid platforms related to AC and DC systems, including power cables, substations and FACTS.

Hitachi unveils grid-stabilizing inverter system

Japan, Chiba: Hitachi Industrial Equipment Systems (HIES) has launched a next-generation Grid Forming Inverter (GFM) at its Narashino Works facility in Chiba, aimed at stabilizing ...

Stability Enhancement of Weak Grids with High Penetration of

...

To address these issues, static synchronous compensators (STATCOMs) with grid-forming capabilities have been developed. GFM STATCOMs can improve grid stability and enhance ...

Hitachi Industrial Systems Unveils Next-Generation Inverter for Stable

Hitachi Industrial Systems has implemented a cutting-edge Grid-Forming Inverter to enhance power stability in renewable energy applications, starting April 2025.

Hitachi Ltd (HTHIY) Unveils Next-Generation Grid Forming Inverte

Q: What is the purpose of the Grid Forming Inverter (GFM) technology? A: GFM technology is designed to stabilize electric power systems by simulating the inertia traditionally ...

Next-Gen Hitachi Inverter Support Power Grid Stability

Hitachi Industrial Equipment Systems Co., Ltd. (HIES) has begun operating a next-generation power conditioner called a Grid Forming Inverter (GFM), at its Narashino Works facility in ...

Hitachi Industrial Equipment Systems Launches Next-Generation ...

Tokyo, Ap- Hitachi Industrial Equipment Systems Co., Ltd. (HIES) has begun operating a next-generation power conditioner *1 called a Grid Forming Inverter (GFM), at its Narashino Works ...

Grid-enSure(TM) , Grid Solutions , , Hitachi Energy

Discover how Grid-enSure delivers the

essential elements needed to keep your power grid resilient, stable, and flexible through advanced grid solutions, ensuring reliable power supply and peak
