

How long does it take for the photovoltaic bracket to be certified by MCS

Overview

The approval timeline can range from a few days to several weeks, depending on your location and application completeness. A successful permit application requires thorough documentation. Unlike the Gas Safe Register, solar panel installers and suppliers are not required by law to be MCS accredited. NICEIC is accredited by UKAS (United Kingdom Accreditation Service) to operate its government approved certification scheme: the NICEIC MCS Approved Contractor Scheme. This accreditation opens doors to government-backed incentives like the Microgeneration Certification Scheme (MCS) installer certification is a crucial qualification for solar panel installers in the UK. Additionally, eligibility for.
