

How many Shire lockers can be built

Overview

Small projects, such as a single house or anything of the sort, can be built anywhere in the wilderness and at least 100 blocks away from a: the edge of someone else's region and b: any other build that isn't regioned. Determine whether individual lockers are needed or whether lockers will be shared. Another consideration is the amount of wall and/or floor space available for the lockers. This refers to the number of vertical units a. Each locker unit's height depends on how many tiers the lockers have - a 1-tier locker has one 6-foot-high locker, a 2-tier locker has two 3-foot-high lockers, a 3-tier locker has three 2-foot-high lockers, a 4-tier locker has four 1-foot and 2-inches-high lockers, a 5-tier locker has five. Set how long employees typically keep their lockers after their shift ends. Cross members need to be added approximately every 24 based on Project. Lockers will be delivered via truck with 53 foot trailer, please ensure in advance the receiving area can accommodate a full-sized truck or if special considera.
