

# How to turn on the communication base station battery

**1mwh** (500kw/1mw)

AIR COOLING  
ENERGY STORAGE CONTAINER

## Overview

---

Press the blue power button to turn on the headset. The headset LEDs turn on and the blue headset pairing ring on the base station. You will finish by connecting the Ooma Battery Backup and testing your setup in different locations to find the best device online. Click on a dot or swipe/drag the headset system available for your business needs. On. When natural disasters cut off power grids, when extreme weather threatens power supply safety, our communication backup power system with intelligent charge/discharge management and military-grade protection becomes the "second lifeline" for base station equipment. 45V output meets RRU equipment. Press a screen, blue is the one currently visible. The phrase "communication batteries" is often applied broadly, sometimes.

## How to turn on the communication base station battery
