

# Huawei Ngerulmud Energy Storage Project

## Overview

---

Located in Palau, Ngerulmud is spearheading energy storage initiatives critical for island nations reliant on imported fossil fuels. With solar and wind resources abundant but intermittent, energy storage systems (ESS) are essential to stabilize grids and reduce dependence on diesel. Summary: The Ngerulmud energy storage projects represent a groundbreaking initiative to modernize power infrastructure in the Pacific. Combining renewable energy integration, grid stability solutions, and innovative battery technologies, these projects aim to address energy security challenges. What is the first large-scale sodium-ion battery energy storage station in China?

In May 2024, Southern Grid commissioned a 10 MWh sodium-ion battery energy storage station in Nanning, Guangxi province, the first large-scale sodium-ion battery energy storage station in China. The energy storage station. Huawei CloudLi Smart Lithium Battery integrates advanced power electronics, IoT, and cloud technologies, offering intelligent energy storage solutions with real-time monitoring and management for optimized power use. Learn about its applications, benefits, and why it's a game-changer for regions prioritizing renewable energy.
