

# Huawei roof solar panel customization

**1mwh** (500kw/1mw)

AIR COOLING  
ENERGY STORAGE CONTAINER

## Overview

---

In this area, you can draw buildings or import building models to draw rooftops to facilitate PV module arrangement and electrical design. If you encounter any difficulties during the operation, click User Guide in the lower left corner to view the solution. After you specify the location, the system automatically generates a rectangle area. Last year this setup produced 13035 kWh and met my expectations, but did not meet my needs. Now to the grand idea the NW facing roof has enough area to fit 25 panels. The inverter has a secondary connector on each MPPT for a parallel string. We handle all aspects of the installation process, from assessing the site to. HUAWEI FusionSolar advocates green power generation and reduces carbon emissions. It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids.
