Overview

OSHA's Construction Code is what you want to reference while installing a solar array. You can use a guardrail, a personal fall protection system, or a safety netting. Solar panel installation often involves working at heights, on rooftops, and with electrical systems. The. DES PLAINES, IL - The U. Department of Labor has cited a solar panel and battery storage company with two repeat safety violations after federal investigators found the company exposed workers to deadly fall hazards twice within three months. The worker lost his footing and fell 15 feet to a concrete driveway. Fortunately, he survived—but this injury might have been prevented.
