

Installation of solar photovoltaic power generation subsidies

Overview

From federal tax credits to state and local incentives, these programs can significantly reduce the cost of going solar. Federal Solar Investment Tax Credit (ITC). Community solar allows multiple people to benefit from a single, shared solar array that can be installed on- or off-site. Costs associated with purchasing and installing a solar energy system are divided among all of the participants, who are able to buy into the shared system at a level that best. Government subsidies for solar energy are a game-changer when it comes to getting homeowners on board with renewable energy sources. These benefits reduce upfront costs, shorten payback periods, and make solar energy an attractive investment.
