Overview

The broad answer to that question is yes, but it's wise to understand the cleaning process in more depth than a simple yes or no. If loose dirt, sand, or sediment has started to accumulate in the grooves and nooks of your solar panels, it can gradually begin to impact their. Is it ok for these wires under the panels (SE optimizers) to touch the shingles below?

Not in Austin. Even outside of the city limits, we always keep the wires zipped. Wire management is the practice of properly routing, organizing, supporting, and protecting the wiring. "Set it and forget it," as the saying goes. Soft bristles, or cloth of some kind?

A wider, rather than narrower, brush would make the job go quicker.
