

# K810 solar control system

## Overview

---

If you can live without backlighting, you can get multipairing for less with Logitech's \$80 solar-powered K760. Press a Bluetooth key to assign your first device to that key to complete Bluetooth pairing on your device: Wi-Fi network > Bluetooth settings, and then turn on Bluetooth keyboard and not the virtual keyboard on your mobile device up to three compatible devices. Press the Bluetooth connect button. There are no Videos available for this Software. With its sleek and stylish design, it features adjustable backlighting that allows for easy typing in low-light conditions. Apple iOS® (iPad® or iPhone®): a. Choose "Logitech K810" from the Devices menu.
