

Laos new container power generation

Overview

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. In what is the first large-scale solar photovoltaic project in Laos, CGN will collaborate with more than 70 Chinese and Laotian enterprises to establish a benchmark for electricity cooperation under the Lancang-Mekong Cooperation framework. The clean energy base is a vital power source supporting. ASEAN member Laos has plans to increase renewable energy in its power mix, notably solar power buildout. However, it continues to rely on hydropower and coal-fired power plants to generate electricity, complicating both its way forward and decarbonisation plans. The State-owned Electric Power Corporation of Laos, better known as Electricite du Laos (EDL), announced a comprehensive.
