

Manufacturer of Wide Temperature Range Power Cabinets

Overview

Manufacturer of custom and standard cabinets for aerospace, automotive, marine, paint, coatings, research, and telecommunication applications. Made from reinforced fiberglass materials. Features include humidifying towers, temperature control up to 160 degrees F, and 35 to 60. Our Enclosures are designed to protect equipment in a wide range of industrial environments. All enclosures are built with advanced CNC. Purcell Systems' solutions specifically address operators and service providers' needs for durable equipment enclosures, modular cabinets, advanced surge protection technology, optimal battery backup enclosures, superior power management, and complete climate control cabinets, for equipment. Open and enclosed server rack and network rack solutions for a variety of environments including data centers, server rooms, network closets, offices, industrial, and specialty applications. Our enclosures provide optimal protection, durability, and performance for electrical systems in power. Introducing Rakworx's versatile Data Center Server Cabinet Portfolio, ranging from 24U to 52U in height and 600mm to 750mm in width, with depths from 1070mm to 1200mm. Our cabinets have meshed doors and a robust six-brace design for superior load-bearing capacity.

Manufacturer of Wide Temperature Range Power Cabinets

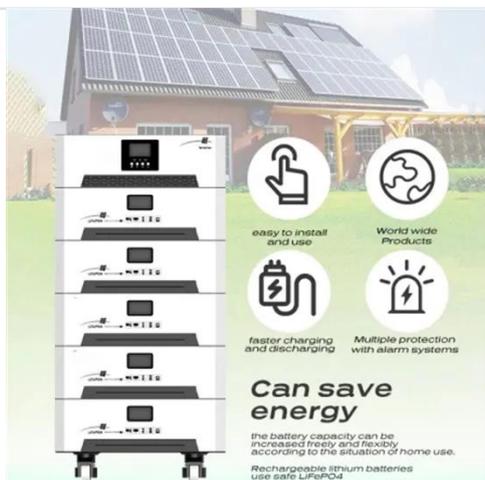

Industrial Electrical Enclosures for Harsh Conditions , Temp-Pro

At Temp-Pro, we manufacture a wide array of electrical enclosures for industrial applications. These enclosures are built to protect hardware and provide optimal performance even in the harshest ...

Power Distribution & Electrical Enclosures , TopCabinet

Our Enclosures are designed to protect equipment in a wide range of industrial environments. Built from durable materials such as stainless steel and mild steel, our cabinets provide reliable performance ...

DATA CENTER CABINETS & RACKS
