

# National Nuclear Zhejiang Energy New Energy Storage

## Overview

---

China National Nuclear Corporation subsidiary CNNC Zhejiang Energy Co Ltd will be responsible for project investment, construction and operations management of the new plant, which will eventually house six Hualong One units. The Jinqimen nuclear power plant located in Xiangshan County, Ningbo, East China's Zhejiang Province. A rendering showing the. China's National Energy Administration (NEA) has released the China New Energy Storage Development Report 2025, marking the first official and comprehensive government report dedicated to the country's rapidly advancing new energy storage (NES) sector. The report, jointly prepared by the NEA's. On J, a milestone progress was made in the field of energy storage - the underground energy storage technology independently developed by Zhejiang Wocheng New Energy Co. "These facilities are designed to work with photovoltaic power generation. Energy storage has emerged as a pivotal component in this transformative landscape, enabling the integration of renewable resources like wind and.

## National Nuclear Zhejiang Energy New Energy Storage

### China's first centralized energy storage power station virtual power

Recently, the New Energy Institute, as the research and development unit, started the design of the 100MW/200MWh electrochemical energy storage power station project of the State Energy Group in ...

### CHINA'S ACCELERATING GROWTH IN NEW TYPE ENERGY

...

In terms of storage types, the dominant advantage of lithium-ion batteries continues to expand, accounting for 97.4% of the new type storage installation. Other types, such as air compression, and ...

### The first case in the country! Zhejiang energy storage project landing

On J, a milestone progress was made in the field of energy storage - the underground energy storage technology independently developed by Zhejiang Wocheng New Energy Co., Ltd. passed ...

## E. China's Zhejiang begins full-scale construction of new nuclear unit

China National Nuclear Corporation (CNNC) began pouring concrete for the nuclear island of Unit 1 at the Jinqimen nuclear power plant on Sunday, marking the full-scale launch of unit

## Clean energy makes up 80% of new power capacity in Zhejiang

Hydropower and pumped-storage projects contributed 2.2 million kW of new capacity, bringing hydropower to 7.31 million kW and pumped-storage capacity to 9.88 million kW. Wind power ...

## China leads the world in new-type energy storage capacity

"The importance of new-type energy storage is becoming increasingly evident. In 2024, we observed a significant improvement in utilization rates compared to 2023.

### Applications

### East China's largest pumped storage station begins construction in ...

The pumped storage power station in Zhejiang is not only a major project requiring intensive technology and capital, but also a critical measure in transforming the energy structure and ...

### China National Energy Administration Released Official Report

China's National Energy Administration (NEA) has released the China New Energy Storage Development Report 2025, marking the first official and comprehensive government report ...

### Construction permit granted for new Chinese plant

China National Nuclear Corporation subsidiary CNNC Zhejiang Energy Co Ltd will be responsible for project investment, construction and operations management of the new plant, which ...

---

## What are Zhejiang's new energy storage projects?

Advancements in energy storage projects within Zhejiang have positioned the province as a leader in sustainable energy practices. By integrating innovative technologies and focusing on ...
