

# New Energy Storage System Expansion Project

## Overview

---

A major energy storage installation is advancing in California as the Sacramento Municipal Utility District prepares to launch a 160-megawatt, 640-megawatt-hour battery energy storage system project. The work will focus on a decommissioned nuclear power plant site. Although a final project cost has. We expect 63 gigawatts (GW) of new utility-scale electric-generating capacity to be added to the U. This amount represents an almost 30% increase from 2024 when 48. 6 GW of capacity was installed, the largest. Houston/WASHINGTON, D. energy storage market set a record for quarterly growth in Q2 2025, with 5.
