

Outdoor energy storage distribution box

Overview

An energy storage outdoor box is a weatherproof, modular unit designed to store electrical energy for later use. Ideal for harsh environments, these systems often integrate lithium-ion batteries, inverters, and smart management software. Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries. This product has sustainability features recognized by trusted certifications. Made with chemicals safer for human health and the environment. Our NEMA 3R Design Battery & Control Enclosures feature powder-coated aluminum, swing out door or chest style, filtered vents and an optional NEMA 4 design separate. Rittal outdoor enclosures provide optimum protection for your battery systems.
