

Pge smart grid

Pge smart grid

Portland General Electric to pilot smart grid chip

The smart grid chips will be installed within PGE's smart grid test bed as part of the pilot. The first phase of the deployment will provide initial real-time visibility at the edge of the grid to ...

Smart Grid Test Bed , PGE

From smart grid-connected appliances, solar energy and battery storage to home EV charging, you may be invited to participate in one or more of these new, innovative Studies and pilot programs.

PG& E Accelerating Home Electrification for Customers via SPAN Edge

This technology complements PG& E's broader grid edge, R& D, and innovation strategy to develop and deploy scalable smart-panel and meter-socket-based solutions to avoid expensive ...

The PGE Smart Grid Test Bed

energy use to other times. Each Smart Grid Test Bed program will be offered to small groups to take advantage of the technologies and locations available. By choosing to participate in these new, ...

Smart Wires & PG& E Expand Grid Capacity in San Jose

Pacific Gas and Electric Company (PG& E) and Smart Wires, today announced a new project to enhance grid reliability and meet energy commitments for data centers connecting in San ...

PG& E Corporation

Pacific Gas and Electric Company (PGE) and Smart Wires today announced a new project to enhance grid reliability and meet energy commitments for data centers connecting in San ...

PG& E and Smart Wires Enhance Grid Reliability, Capacity for Data

"Working with Smart Wires allows PG& E to efficiently address projected capacity

needs while maintaining high reliability for our customers," said Chad Dupuis, Principal Electrical Engineer,

Electric Systems , PG& E

Learn how the Smart Grid and SmartMeter(TM) are working together to power a brighter future. View charts showing today's grid status and the role that renewable energy plays.

PG& E's Grid Modernization Progress Report April 24, 20

PG& E adopted LoadSEER 4 in 2023, which adds numerous capabilities to PG& E's forecasting process, including: Transition from SCADA to AMI meter based historical load shapes

PG& E and Itron expand Grid Edge technology to better manage

Pacific Gas and Electric Company (PG& E) and Itron are advancing the next

phase of their collaboration to improve grid reliability, support electric vehicle (EV) adoption, and reduce wildfire ...
