

# Photovoltaic brackets exported to Europe

## Overview

---

Europe's solar installations grew by 47% year-over-year in 2023, driven by energy security concerns post-Ukraine crisis. But here's the catch: over 60% of photovoltaic (PV) brackets used in these projects still rely on imports from Asian manufacturers. While China. Can European businesses achieve a competitive position in the global solar-PV supply chain and strengthen Europe's energy transition and resilience?

It's challenging but a potential pathway exists. Europe has committed to being a climate-neutral society by 2050. <sup>1</sup> This is an ambitious target, which. ou choose a solar PV mounting supplier?

As a solar PV mounting supplier, we provide you with high-quality solar panel ground mounting systems, including solid brackets and support structures so that you can install solar panels on the gro e can I buy photovoltaic ountings?

ul. With firm faith, practical actions and innovative spirit, we have faced the opportunities and challenges of the global market head-on. With the joint efforts of all colleagues, we. Photovoltaic Bracket by Application (Residential, Commercial), by Types (Roof Photovoltaic Bracket, Ground Photovoltaic Bracket), by North America (United States, Canada, Mexico), by South America (Brazil, Argentina, Rest of South America), by Europe (United Kingdom, Germany, France, Italy, Spain).
