

Photovoltaic energy panel subscription scam

IP65/IP55 OUTDOOR CABINET

ALUMINUM

OUTDOOR ENERGY STORAGE CABINET

OUTDOOR MODULE CABINET

Overview

While there are some government-funded solar programs for households that qualify, “going solar” isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. People complain that they were deceived about costs and savings, misled about loans and with the Con sck what resources are available in your state: usa.gov/state-consume purchase agreement, or subscribing to a community solar. Con artists use misleading sales tactics and lies to trick homeowners out of money and personal information. If you've received an offer for "free solar panels," it could be a scam. If it sounds too good to be true, it probably is.
