

# Photovoltaic panels on the roof of a large hotel

## Overview

---

Place panels at the optimal angle for maximum energy capture. Bardessono, a hotel in Yountville, California opened in 2009, was designed to be one of the most energy efficient luxury hotels in the world. The owners wanted to prove that “a hotel can provide a fully luxurious guest experience and be very green at the same time. in a manner that is practical. A solar installation on your hotel, whether on the roof or a carport, requires professional planning and execution. Think about it: you've got large rooftops, massive energy needs, and guests who'll love bragging about staying at an. Solar panels are capable of powering a hotel, meeting all of its energy needs or significantly reducing its energy bills. Although most hotels rely on electricity and natural gas, any hotel can benefit greatly from solar power.
