

Registering a solar power generation company

Overview

The purpose of this article is to show you how to register, open, and operate your own solar power business. A power generation company (PGC) is a person that generates electricity intended to be sold at wholesale and does not own a transmission or distribution facility in this state (with some exceptions, see PUCT Substantive Rule 25). The solar industry continues to grow rapidly, with increasing demand for clean energy solutions across residential, commercial, and industrial sectors. In this guide, we'll walk. To successfully establish a solar power company, individuals or entities must follow a strategic approach. With a compound annual growth rate (CAGR) projected at 13% between 2022 and 2030, the market could reach \$552. Choose the Right Business Structure: Select an appropriate structure, such as an LLC, which impacts taxes, liability, and regulatory.
