Sodium-Ion Batteries Signal a Strategic Shift in Global Energy Storage

In the United States, Peak Energy has already begun deploying sodium-ion systems to support renewable energy integration. While energy density remains lower than that of advanced ...

Why Sodium-Ion Batteries Are Happening Now

While some applications like energy storage have switched to LFP, until now sodium-ion batteries have not been produced at the same volume levels. The question is, why?

Peak Energy just shipped the US's first grid-scale sodium-ion battery

Launching the US's first grid-scale sodium-ion battery comes less than two years after Peak Energy came out of stealth mode and just a year after it closed a \$55 million Series A round .

Sodium-ion batteries: 10 Breakthrough Technologies 2026

Storing clean energy generated by solar and wind has long been a challenge. Sodium-ion batteries, with their low cost, enhanced thermal stability, and long cycle life, are an attractive

Peak Energy Delivers First Grid-Scale, Sodium-Ion Battery Storage

Cost-competitive with state of the industry products while offering dramatically lower operating and maintenance costs, Peak Energy's product is the first ever fully passive megawatt ...

Alsym Energy Debuts Na-Series Sodium-Ion Storage Batteries

Malden's Alsym Energy has rolled out its Na-Series sodium-ion batteries for stationary energy storage, using nonflammable, abundant materials to cut costs and simplify installations ...

Alsym Energy launches Na-Series, claiming safe, low-cost

sodium-ion

US-based battery developer Alsym Energy has officially announced its new Na-Series line, a sodium-ion battery aimed at the stationary energy storage market. The company based out of ...

Alsym Energy Announces Na-Series: Safe, High-Performance Sodium ...

Purpose-built for energy storage applications, Na-Series batteries offer a non-flammable, non-toxic, and cost-effective solution to meet the surging demand for power driven by data centers, ...

Alsym Energy launches sodium-ion battery line

US-based battery developer Alsym Energy has officially announced its new Na-Series line, a sodium-ion battery aimed at the stationary energy storage market. The company based out of ...
