

Solar outdoor energy can be recorded all the time

Support Customized Product

Overview

AOV technology solves this by enabling true 24/7 continuous recording while maintaining remarkable power efficiency. This innovation makes it ideal for uninterrupted surveillance scenarios, such as commercial properties, industrial sites, and critical infrastructure. Let's explore why these cameras are a smart choice and how they work to keep you safe. [What Are Solar Cameras?](#)

How Do Solar Cameras Record Even When No One Is There?

Why Choose LS VISION. This product has sustainability features recognized by trusted certifications. The ClimatePartner certified product label confirms that a product meets the requirements for the five steps in climate action. AOV (Always On Video) solar camera technology represents a breakthrough in surveillance systems by combining 24/7 continuous monitoring with efficient power management. They draw power from solar panels (bundled or sold separately) and offer users better flexibility than wired security cameras.

Solar outdoor energy can be recorded all the time

AOV Solar Camera: Revolutionary 24/7 Solar- Powered Surveillance
