

# Solar power generation EPC project

## Overview

---

A solar EPC company provides a turnkey solar system: Engineering (design and planning), Procurement (sourcing equipment and materials), and Construction (installation, testing, and commissioning). An EPC contractor delivers a solar project from concept through commercial. To ensure the successful implementation of solar projects, the Solar EPC (Engineering, Procurement, and Construction) model is widely adopted. Solar energy continues to gain momentum as one of the most promising renewable energy sources. Developers, commercial enterprises, utilities, and government organizations are seeking experienced partners who can deliver turnkey solar solutions that comply with regulations.
