

# South Korea s integrated energy storage power station

## Overview

---

The project is billed as Asia's largest battery energy storage system for grid stabilization purposes. Korean Electric Power Corporation (KEPCO) said last week (26 September) that a completion ceremony was held for what it claimed. Listed below are the five largest energy storage projects by capacity in South Korea, according to GlobalData's power database. Korea Electric Power Corp. However, a string of ESS-related fires and a lack of infrastructure had dampened investments in this market.
