

St george solar power system

Overview

George Energy Services Department and Dixie Escalante Electric have built a large solar photovoltaic (PV) facility allowing residents to get solar power through SunSmart, a community solar farm. The program itself is simple, with no set-up, no maintenance and no risk to. City of St. George residents through SunSmart. Today, solar combined with battery gives you a virtual power plant that will fix your power cost for decades and provide indefinite generation backup for your home. My name. HedgeHog is a trusted name in delivering effective solar services. George homeowners have more options than ever before, which can be too much to get a handle on, but we're here to make making the switch to solar power less confusing. SGESD serves approximately 33,000 customers, including residential and commercial, with a current annual peak of 215 MW. SGESD offers twenty-four hour dispatch.
