

# Storage solar container battery factory in Toronto

## Overview

---

Toronto, Ontario - - The Oneida Energy Storage Project has officially commenced commercial operations, becoming the largest grid-scale battery energy storage facility in operation in Canada and one of the largest globally. We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are CATL brand, whose LFP chemistry packs 1 MWh of energy into a battery volume of 2. The company offers value-added system. Bluesphere Ventures Inc. Based in New York City, Bluesphere operates as a sustainability startup. As a subsidiary of Canadian Solar, e-STORAGE is a leading company specializing in the design, manufacturing, and integration of battery energy storage systems for utility-scale applications. EV batteries still have an average of 80% original capacity left when retired. Bluesphere Ventures is set to develop dozens of five-megawatt (MW) energy-storage projects across Toronto as part of a broader plan to deploy 200 MW of battery-storage capacity in Canada, Sustainable Biz Canada reported. The initiative aims to support electricity reliability as more solar power.
