

Sungrow Off-Grid Inverter Photovoltaic Accessories

Overview

The following guide is a condensed guide with all the extra information you will need to install and commission the Sungrow Hybrid inverter in Off-Grid mode, with a backup Generator. The Genset must be able to supply end user loads and charge battery at the same time. Since its establishment in 1997, the company has been dedicated to the R&D and manufacturing of photovoltaic system equipment with photovoltaic inverters at its core, providing world-class photovoltaic system solutions for global customers. The power range of Sungrow's photovoltaic inverters spans. The material in this document has been prepared by Sungrow Australia Group Pty. ABN 76 168 258 679 and is intended as a guideline to assist solar installers for system design. Sungrow has recently added a new feature for the Sungrow SHRS inverters to make them available to be used in an off-grid situation with a backup generator to charge batteries if there is not enough solar. Sungrow provides a comprehensive portfolio, which includes solar inverter and battery energy storage system technologies, as well as everything needed to efficiently operate these components within your budget. 8 MW modular inverter, a utility-scale battery energy storage system and a commercial and industrial scale battery energy storage system at the RE+ trade show in Las Vegas, Nevada.
