

The latest policy on new energy storage grid connection

Overview

With solar and storage making up the vast majority of new electric generating capacity being added to the grid, SEIA's "Solar and Storage Industry Policy Agenda for a Reliable, Secure Grid" offers a blueprint for modernizing energy infrastructure, supporting development of. With solar and storage making up the vast majority of new electric generating capacity being added to the grid, SEIA's "Solar and Storage Industry Policy Agenda for a Reliable, Secure Grid" offers a blueprint for modernizing energy infrastructure, supporting development of. A policy explainer that explores how energy storage policies play a pivotal role in facilitating the transition to clean energy, with insights into effective policy frameworks for maximizing the integration of renewable resources into grid operations. A toolkit that offers comprehensive solutions. The backlog of proposed power plants that have submitted grid connection requests (i., the interconnection queues) is larger than ever. As reported in our flagship Queued Up report, grid connection requests active at the end of 2023 were more than double the total installed capacity of the US. — Today the Solar Energy Industries Association (SEIA) is unveiling a new policy agenda that details the critical actions that local, state, and federal leaders must take to strengthen the reliability of America's electric grid with solar and storage technologies. California and Texas have demonstrated that with updated market rules, energy storage delivers substantial value and complements both thermal and renewable generation to meet.

The latest policy on new energy storage grid connection

The 50 States of Grid Modernization Q2 2025: States Pursue Rules for

The report discusses three trends in grid modernization actions taken in Q2 2025: (1) states mandating procurement of energy storage, (2) lawmakers implementing rules governing ...

New energy storage project grid connection policy

The Federal Energy Regulatory Commission approved a major new rule Thursday to accelerate the connection of energy projects to the power grid, a move that could ease widespread ...

BASIC APPLICATION

Storage systems have been proven to be "extremely lucrative" for commercial and industrial (C&I) filed.

US Department of Energy Grid Modernization Initiative

Markets, Policies, and Regulations: This pillar includes research on the current market, policy, and regulatory environment aimed at developing strategies for a grid which is efficient and capable of ...

FERC issues rule to speed grid connections for storage, renewables

The Federal Energy Regulatory Commission approved an interconnection reform rule July 27 that aims to speed grid connections for wind, solar, energy storage and other generating resources.

Grid Connection Barriers To New-Build Power Plants In the United ...

To better understand the dynamics of interconnection, and what solutions may be available, we compiled and analyzed two unique datasets for the first time, in " Grid connection ...

US states advance energy storage and grid reforms in Q2

The "50 States of Grid Modernization" quarterly report from NC Clean Energy Technology Center identified policy trends related to US grid modernization across the 2025 legislative session.

New Report: Market Reforms to Harness Energy Storage and ...

While some regions of the United States have made progress integrating energy storage into energy resource portfolios, several organized electricity markets have yet to unlock the benefits ...

Solar and Storage Industry Releases Policy Agenda to Strengthen ...

-- Today the Solar Energy Industries Association (SEIA) is unveiling a new policy agenda that details the critical actions that local, state, and federal leaders must take to strengthen the ...

Energy Storage Targets , State Climate Policy Dashboard

A policy primer exploring how energy storage technologies work, the benefits that storage can deliver to the electric grid, the current legal and regulatory barriers to adoption, and policy ...

State by State: A Roadmap Through the Current US Energy Storage Policy

The new law requires the Maryland Public Service Commission to establish the Maryland Energy Storage Program by Jan provides for incentives for the development of energy ...
